

The University of Copenhagen's six faculties have since 2013 offered Massive Open Online Courses (MOOCs). It is our belief that the new technologies and rapid innovation within online learning will ultimately lead to better education – not just for the University's many thousands of MOOC learners, but also for the students enrolled at the University of Copenhagen.

20 courses
702,108 unique learners
87,502 course completions
10,467 paid enrollments

Record: 28.172 new enrollments in just one month (September 2020).

2020 - WHAT A MOOC-YEAR

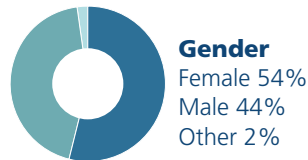

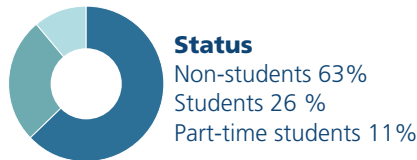

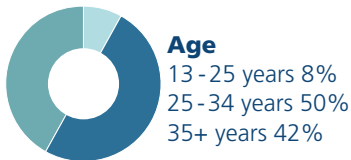

In March 2020 the pandemic hits hard all over the world. The number of students enrolling for a UCPH-coursera-course has more than doubled between February and March and the increasing numbers continue month after month:
